### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: As indicated in the previous Office action, the prior art does not disclose or reasonably suggest a tunable light source comprising an optical parametric amplifier in an optical cavity for performing an optical parametric oscillation and being pumped so as to operate at or near degeneracy, in combination with an adjustment means for adjusting the pumping frequency to select a gain spectrum of the optical parametric oscillation and a spectral control means for setting a resonant frequency of the optical cavity within the selected gain spectrum. Since claim 25, the only claim which was previously rejected over prior art, has been amended to recite such features, all pending claims are now allowed. All of the pending claims thus patentably distinguish over the Wong reference. After an updated search, the Wong reference remains the closest prior art known. Claims 1-25 and 27-56 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
